PROFILE SUMMARY

B.Tech graduate in Information Technology with expertise in web development, artificial intelligence, and machine learning. Skilled in developing scalable and responsive applications using Python, Flask, MySQL, and modern web technologies. Strong interest in AI-driven applications, problem-solving, and innovative software solutions.

EDUCATION

B.Tech in Information Technology 2022 – 2026
LBS College of Engineering, Kasaragod kasaragod,kerala

EXPERIENCE

Artificial Intelligence Intern, AICTE, Shell India & Edunet Foundation 08/2025 – 09/2025

- Completed 4-week virtual internship focused on AI applications for sustainability and green technology
- Developed practical skills in implementing AI solutions for environmental challenges

Artificial Intelligence Intern, Infosys Springboard 11/2025 – 01/2026

- Developed AI-driven archaeological site mapping solutions using machine learning techniques.
- Built machine learning models for segmentation, object detection, and terrain erosion prediction.

TECHNICAL SKILLS

- **Languages:** Python, Java, C
- **Web Technologies:** HTML, CSS
- **Frameworks & Tools:** Flutter, Flask, React, Git, GitHub, VS Code, Render, Node.js
- **Database:** MySQL
- **Soft Skills:** Problem-solving, Leadership, Communication, Teamwork

PROJECTS

AI-Powered Pragmatic Behaviour Analysis In Children 2024 – 2025

- Developed an AI/ML-based system for early behavior analysis in children under 10 years.
- Combined real-time video analysis with parent/caretaker MCQ responses to detect pragmatic behavioral patterns.

Carbon Footprint Tracker 01/2025 – 03/2025

- Built a full-stack web platform to track and reduce carbon footprint through real-time analytics on energy, transportation, and waste.
- Implemented secure authentication and gamification features to enhance user engagement.

AI-Powered Archaeological Site Mapping 01/2026

- Developed an AI-based system to analyze satellite and drone imagery for archaeological insights
- Implemented segmentation and object detection models for identifying ruins and artifacts
- Built machine learning models for terrain erosion prediction

SafeSpace - Anonymous Reporting System 09/2025 – 03/2026

- Built an anonymous reporting system enabling students to submit complaints securely
- Implemented NLP-based classification to categorize complaints and detect severity
- Developed REST APIs with anonymous chat and basic heatmap-based visualization for report insights

ACHIEVEMENTS

STATE LEVEL WINNER DREAMVESTOR 2.0 2025

Secured the winning position in a government-organized innovation pitch competition for presenting a tech-based solution with real-world impact.

DISTRICT LEVEL WINNER- YIP 7.0 (MoE Innovation Cell, Govt. of India) 2025

Recognized for innovative project Carbon Footprint Tracker at LBS College of Engineering, Kasaragod.

COORDINATOR-CIPHER 2026 INTERCOLLEGE TECH FEST 2026

Coordinated and managed an intercollege technical fest, ensuring smooth execution and team collaboration

SECOND RUNNER-UP - CIPHERTHON 2.0 HACKATHON 03/2026

Secured 2nd runner-up position in a 6-hour inter-college hackathon
Demonstrated strong problem-solving and rapid prototyping under time constraints

CERTIFICATES

- **Prompt Engineering for ChatGPT** 📄
- **IBM SkillsBuild – Agentic AI: From Learner to Builder**
- **Python for Data Science, AI & Development** 📄
