PROFILE SUMMARY

B.Tech graduate in Information Technology with expertise in web development, artificial intelligence, and machine learning. Skilled in developing scalable and responsive applications using Python, Flask, MySQL, and modern web technologies. Strong interest in AI-driven applications, problem-solving, and innovative software solutions.

EDUCATION

B.Tech in Information Technology LBS College of Engineering, Kasaragod	2022 – 2026 kasaragod,kerala
--	---------------------------------

EXPERIENCE

Artificial Intelligence Intern, AICTE, Shell India & Edunet Foundation • Completed 4-week virtual internship focused on AI applications for sustainability and green technology • Developed practical skills in implementing AI solutions for environmental challenges	08/2025 – 09/2025
Artificial Intelligence Intern, Infosys Springboard • Developed AI-driven archaeological site mapping solutions using machine learning techniques. • Built machine learning models for segmentation, object detection, and terrain erosion prediction.	11/2025 – 01/2026

TECHNICAL SKILLS

- **Languages:** Python, Java, C
- **Web Technologies:** HTML, CSS
- **Frameworks & Tools:** Flutter, Flask, React, Git, GitHub, VS Code, Render, Node.js
- **Database:** MySQL
- **Soft Skills:** Problem-solving, Leadership, Communication, Teamwork

PROJECTS

AI-Powered Pragmatic Behaviour Analysis In Children • Developed an AI/ML-based system for early behavior analysis in children under 10 years. • Combined real-time video analysis with parent/caretaker MCQ responses to detect pragmatic behavioral patterns.	2024 – 2025
Carbon Footprint Tracker • Built a full-stack web platform to track and reduce carbon footprint through real-time analytics on energy, transportation, and waste. • Implemented secure authentication and gamification features to enhance user engagement.	01/2025 – 03/2025
AI-Powered Archaeological Site Mapping • Developed an AI-based system to analyze satellite and drone imagery for archaeological insights • Implemented segmentation and object detection models for identifying ruins and artifacts • Built machine learning models for terrain erosion prediction	01/2026
SafeSpace - Anonymous Reporting System • Built an anonymous reporting system enabling students to submit complaints securely • Implemented NLP-based classification to categorize complaints and detect severity • Developed REST APIs with anonymous chat and basic heatmap-based visualization for report insights	09/2025 – 03/2026

ACHIEVEMENTS

STATE LEVEL WINNER DREAMVESTOR 2.0 Secured the winning position in a government-organized innovation pitch competition for presenting a tech-based solution with real-world impact.	2025
DISTRICT LEVEL WINNER- YIP 7.0 (MoE Innovation Cell, Govt. of India) Recognized for innovative project Carbon Footprint Tracker at LBS College of Engineering, Kasaragod.	2025
COORDINATOR-CIPHER 2026 INTERCOLLEGE TECH FEST Coordinated and managed an intercollege technical fest, ensuring smooth execution and team collaboration	2026
SECOND RUNNER-UP - CIPHERTHON 2.0 HACKATHON Secured 2nd runner-up position in a 6-hour inter-college hackathon Demonstrated strong problem-solving and rapid prototyping under time constraints	03/2026

CERTIFICATES

- Prompt Engineering for ChatGPT 📄
- IBM SkillsBuild – Agentic AI: From Learner to Builder
- Python for Data Science, AI & Development 📄
